

TITLE: Procedures for Title II Reporting

The Hawaii Teacher Standards Board approves use of the WESTAT IHE Data Entry Tool, a reporting system for Institutions of Higher Education (IHE)-level Title II data collection. All Hawaii IHEs required to report Title II data and information concerning their State Approved Teacher Education Programs shall use this tool for mandatory reporting purposes.

When guidance documents are available from WESTAT, HTSB staff will deploy information on technical assistance and training to Hawaii IHEs.
